THE BEST MOMENT OF THE DAY.

Maybe you've spent hours in a successful meeting,
or played a gruelling five-a-side football match with your friends.

Perhaps you've been on your feet all day shopping,
or out travelling to explore wonderful new locations.

All these things require effort.

These are both exciting and small adventures of everyday life.
The ones that give you real pleasure, purpose and a feeling of fulfilment.

As great as they are they can also be tiring.
Now is the time to turn an exceptional or a tiring day into a perfect one.

The moment that refreshes you to face new challenges tomorrow.

Your bath Jacuzzi®.

It's not just a matter of hydromassage technology,
we're talking about real science that produces authentic, all-round well-being.

It's the best moment of the day.

ALL STARTED

BRAND STORY

When the seven Jacuzzi brothers emigrated from Italy to the United states, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

DISCOVER
 OUR STORY

A woman with her hair in a ponytail is shown in profile, sitting in a meditative pose on a dark, rocky cliff edge. She is wearing a white tank top and dark pants. Her hands are resting on her knees in a mudra. The background is a clear blue sky with some clouds near the horizon. A large, light blue rectangular frame surrounds the central text.

**WELLNESS
CAN NOW BE
MOULDED AROUND
YOUR DESIRES.
FIND OUT HOW.**

Whatever your idea of wellness may be, Jacuzzi® has it for you. But if you really can't wait to find your perfect bath or shower, simply choose what you could never do without. Your wish will come true straight away.

“Water heals.”

This statement belongs to Sebastian Kneipp, a 19th century Bavarian priest who laid the foundations of modern hydrotherapy, a healing method based on many ways of applying water.

In particular, hydrotherapy uses full or partial showers or baths to warm or refresh the body.

The healing action is achieved thanks to the temperature of the water. The purpose of this treatment is to stimulate the body's natural self-healing mechanisms through alternate applications of hot and cold water.

The first reaction, which is skin deep, is then transmitted to tissues deep inside the body that are connected to the surface by means of the nervous system. Although a hot bath may be exhilarating at first, its aftermath may be stressful for the body. The water temperature must be adapted to the duration of your bath. Above 37°C water is classified as hot; at 40°C it is very hot and over 46°C it becomes unbearable for more than a few seconds.

40°C **Hot water**

up to

Very relaxing, induces drowsiness and sleep.

34-38°C **Water at body temperature**

up to

Reduces tension and favours sleep.

Sweating, which cleanses the skin and body and helps to eliminate lactic acid, is stimulated by adding bath salts.

33°C **Lukewarm water**

up to

Helps eliminate water retention.

27°C **Cool water**

up to

Alleviates fatigue.

18°C **Cold water**

up to

Aids muscle recovery after physical exertion.

Hydromassage designed to be the best in the world.

There must be a reason behind the famous name Jacuzzi® has made for itself as the best hydromassage in the world. In fact, there are plenty of reasons: the TargetPro™ jets for instance, developed to deliver a targeted massage to each body area thanks to a perfect mixture of air and water.

Both their power and direction can be fully adjusted for an effective massage, no matter what your requirements may be.

Change the direction of your jets through 360 degrees to treat specific body areas with a perfect mixture of air and water. Rotate the jets to adjust their power or turn them off altogether.

WATCH THE VIDEO

Just the right temperature for wellness.

A hydromassage is truly perfect when it strikes the right balance between the temperature of the water and the duration of the bath. Heat is the ideal ally of psychological and physical relaxation but it can also cause excess stress.

The general rule is: the higher the water temperature - that should never exceed 40°C - the shorter the hydromassage.

Recommended temperatures and durations:

38°C - 40°C
10 minutes

36°C - 38°C
15 minutes

34°C - 36°C
20 minutes

As well as whirlpool baths, Jacuzzi® also offer a wide range of non-jetted baths. Total immersion in water at various temperatures has beneficial effects on the mind and body. You can even complete each treatment with essential oils and salts for a really unbeatable wellness experience.

Shower and steam bath. Your wellness centre.

Raindrop, Scottish, cascade...there are all sorts of showers but those produced by Jacuzzi® can easily be summed up in two words: wellness centre. The adjustable jets, that can be directed to any body area, deliver the benefits of an authentic, relaxing and regenerating treatment for the mind and body. Jacuzzi® hydrotherapy has been designed to satisfy all your requirements: it firms the skin and keeps it supple, promotes proper blood circulation and even fights cellulite.

You can take a purifying steam bath, cleanse your skin in

depth, boost your respiratory system and take off again with renewed energy. The steam bath, also called “hammam”, uses dry steam and differs from a sauna because it requires an environment saturated with hot air at 40-50°C and 100% humidity. This treatment strengthens your immune system, speeds up your metabolism and improves blood circulation. When paired with aromatherapy it delivers awesome benefits for your mind and body. In other words, wellness is just a Jacuzzi® away. And we keep our promises.

The shape of wellness: Swirlpool®.

The ARGA® design is fluid and minimal to complement the **gentle, soft and enveloping Swirlpool® bathing experience.** Different styles and installations offer adaptability. The design offers a warm, oval, reassuring shape - an ancestral nest, of sorts - born to eliminate the perception of time and lull the bather with **swirls of water and integrated jet lighting.**

Illumatherapy™ features infuse the water with a warm and magic glow. The touch pad complements the bath with a modern design style and three control icons. It serves as a meaningful ARGA® design element, by blending elegance, performance and comfort.

Dive in time: ARGA®.

Time and water have much more in common than expected - they both flow in harmony within the universe of ARGA®, the revolutionary Jacuzzi® bath experience intended to redefine the world of personal wellness.

With the **new Swirlpool® technology**, the bath experience emulates that of an enveloping, heartfelt embrace, or that of full immersion in a silent creek, all while deeply connected with nature. Thanks to the delicate swirls created by the colored water jets and the constant bath water temperature, the ARGA® experience becomes multi-sensory and fully immersive.

A NATURAL INFUSION OF WELLBEING.

Bath salts available in formats:
box containing four 250 g pieces
single 250 or 1000 g bottle

Bath salts.

The specially-formulated ARGA[®] bath salts* reflect a biological philosophy that respects the water by keeping it pure. Salts and botanical elements are perfectly blended, each with specific properties customized to meet the needs of the bather. The integrated bath infuser eliminates the need to mix the salts by hand and naturally infuses the water without any suspended residue. Bathing with salts can be compared to individual poetry - written in a different way, every day.

Thanks to their intrinsic benefits and with names inspired by the mythological greek goddess Horae, bath salts harmoniously satisfy every bather's need.

CARPO: the nursing earth

A salt formulated for those who want to recover from physical activity - a revitalizing formula comprised of magnesium and calcium that is unscented and colorless once dissolved. CARPO is a real alchemy of nature with the ability to regenerate muscle tone.

THALLO: a burst of energy

The iodine and lavender flower petals in THALLO hold a scented force of life. Its youthful spirit turns the ARGA[®] bath water light blue like the sky while moisturizing the body and relaxing the mind to simulate a never-ending spring.

AUXO: the joyful side of life

A stimulating salt with zinc, lithium and hibiscus flower petals with a scent reminiscent of enthusiasm and desire to take on challenges. The light pink hue of the ARGA[®] bath water provides optimism and hope.

EIRENE: the peace of body

With its magnesium and Vitamin B-based formula, EIRENE is the scented salt formulated to detox and rejuvenate the body. The fresh and peaceful lemon scent offers physical and emotional equilibrium.

**A MOMENT
OF PERFECT
CONNECTION AND
HARMONY**

A white freestanding bathtub is the central focus, set against a dark grey wall with white wainscoting. The tub is oval-shaped with a classic, slightly flared design. Behind it, a chrome faucet and showerhead are visible. To the right, three modern pendant lights with glowing spherical bulbs hang from the ceiling. The floor is made of dark wood planks.

A BATHTUB WITH A TIMELESS DESIGN

INGRID

The timeless design of the bath in the centre of the room with a seamless joint adds a refined air to your bathroom. Available in two different sizes and a glossy or satin finish.

A white, oval-shaped freestanding bathtub is positioned in a bathroom. The tub is set on a dark wood plank floor. Behind the tub is a large window with white frames, offering a view of lush green foliage. To the left of the tub, a black, curved shower faucet stands on a pedestal. The overall scene is bright and serene.

**A BATHTUB WITH DOUBLE-SEAT:
AS THOUGH YOU ARE RELAXING IN AN ARMCHAIR**

PERSEA

The avocado inspires the name and sinuous form of the asymmetric oval with twin seats to enjoy the bath and a good book, just like in an armchair. Available in two different sizes and a glossy or satin finish.

THE ENERGY-BOOSTING ACTION OF A SHOWER, THE PLEASURE OF A BATH.

MIX

MIX
designed by Jacuzzi®

This perfect bath and shower combo offers you the best of both worlds in a single product, providing versatile and affordable wellness. You can enjoy a shower, use the handheld shower or relax in the bath, and all these options are always readily available. We have also made sure you will feel safe and protected at all times: the unit is easy to get into and can be effortlessly cleaned all over from the outside for impeccable hygiene. Lastly, there is no need to worry about spoiling your bathroom either because Mix is fastened to the wall through one, single hole.

CLOUD

Designed by
Luca Loschi and
Fabio Verdelli

A wellness haven that can be built around your own desires and adapts perfectly to, and enhances the finishes of, its surroundings. Cloud can be installed with or without a shower tray, with or without a glass wall panel and with a sliding or hinged door. Comfort reigns inside: listen to your favourite music, lean on the slanting back panel and choose one of the timed Day&Night chromotherapy-shower programmes at the touch of a finger. Enjoy the benefits of the raindrop shower head, the cascade shower or the nebulized mist effect without worrying about your water bill.

PEACE OF MIND AFTER YOUR PURCHASE.

After having purchased a Jacuzzi® product it is important to be able to enjoy trouble-free peace of mind in the knowledge that you can count on an efficient and widespread after-sales service.

The J-Service organisation is made up of skilled and qualified professionals who ensure that each Jacuzzi® product stays in perfect shape for a very long time. Jacuzzi® Service Centres are important points of reference for our customers who can count on constant advice and periodical maintenance for their bathtubs.

Jacuzzi® products come with a 24-month guarantee: contact your nearest dealer or an authorised after-sales service centre for details of the scheduled maintenance programme and of the guarantee extension.
