THE BEST MOMENT OF THE DAY

Maybe you've spent hours in a successful meeting,
Or played a gruelling five-a-side football match with your friends.

Perhaps you've been on your feet all day shopping,
Or out travelling to explore wonderful new locations.

All these things require effort.
They are the exciting yet small adventures of everyday life.

The ones that give you real pleasure, purpose and a
feeling of fulfilment.

As great as they are they can also be tiring.
Now is the time to turn an exceptional or a tiring day
into a perfect one.

The moment that refreshes you to face new challenges tomorrow.

Your Hot Tub Jacuzzi®.

It's not just a matter of hydromassage technology,
we're talking about real science that produces
authentic, all-round well-being.

It's the best moment of the day.

BEST MOMENT

JACUZZI® BRAND IS AN ICON

Renowned for its performance reliability and ease of use,
we set the standard by which all hot tubs are measured.

While imitation may be the sincerest form of flattery, only
65 years of innovation can produce hot tub designs made to
the demanding standards of the Jacuzzi® Brand.

Commercial

Jacuzzi® Brand products are manufactured in 5 countries, enjoyed in more than 100 countries worldwide, and employ thousands of people around the world. Representing decades of innovation, design, performance and ease of use, the Jacuzzi® Brand is trusted by millions of customers globally.

BRAND STORY

When the seven Jacuzzi brothers emigrated from Italy to the United States, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

Jacuzzi® create and market the world's first integrated whirlpool bath, the 'Roman'

PERFORMANCE

Jacuzzi® premium products support the needs of high endurance athletes and teams who are committed to maintaining and improving their quality of life, both during and beyond their active careers through the power of hydrotherapy. Whether you're a professional athlete or a weekend warrior, Jacuzzi® products increase your ability to recover, relax and perform, harnessing water's natural ability to heal the mind, body and soul. The Jacuzzi® Brand proudly partners with endurance athletes and professional teams around the world.

JACUZZI® HOT TUB

#JacuzziPerformance

THERE'S A
JACUZZI®
HOT TUB
FOR EVERY
KIND OF SPACE.

Whether your outdoor or indoor space is generous, compact or somewhere in between, there's a Jacuzzi® hot tub to fit. From a lawn fringed patio to a terrace, you can be sure that our ingeniously designed and easy to install range will be right at home. With no need for outdoor plumbing, your hot tub can be conveniently installed into an area that best suits the way you live.

HYDROMASSAGE

Hydromassage research supports the benefits of hydrotherapy for stress, lower back pain, sleeplessness, post exercise recovery, leg cramps, arthritis and fibromyalgia.

POWERPRO® JETS COLLECTION KEY

EXCLUSIVE POWERPRO® JET SYSTEM

Utilising Jacuzzi® Aqualibrium®, the combination of versatile PowerPro® Jets, and our ergonomically designed seats, our products deliver an adjustable high-flow, low-pressure hydromassage that feels like no other.

AQUALIBRIUM®

The perfect mix of air and water.

**THE FX
therapy seat**

The full coverage neck and back seat not only delivers deep, adjustable pressure to relieve chronic aches and pains. The FX-12 seat also targets muscle tension in your calves and feet for a full-body experience.

**THE RX
therapy seat**

The RX rotating nozzle in the therapeutic seat offers back and neck support for the perfect hydro-massage.

**THE MX
therapy seat**

Recognised as our original Jacuzzi® Jet, the MX Jet seat delivers a concentrated massage especially effective for larger muscles in the lower back.

**THE PROAIR™
LOUNGE**

The perfect combination of two types of PowerPro® Jets, this muscle knot release lounge seat stimulates surrounding tissue. The upper back rotating massage of the FX Rotational Jets eases the tension of the muscles along your neck and shoulders while the rifling action targets the smaller muscle groups of your legs and lower back.

Some of the smallest daily rituals that you enjoy, can be more beneficial than you realize. Following a regular hydromassage routine, can improve your overall well-being by reducing stress and lower back pain, improving sleep and post exercise recovery, and alleviating restless leg syndrome, cramps, arthritis and fibromyalgia. And it's just as easy to build into your daily routine, as taking time out to enjoy a cup of coffee!

ANTHROPOMETRIC DIMENSIONS

By studying the anthropometric dimensions of the 5th percentile of females and 95th percentile of males, we can design hot tubs based on the average dimensions of 90% of the population to deliver a personalized massage.

MUSCLE STRUCTURE
JET CONFIGURATION

ERGONOMIC SEATING

Seats designed to follow the contours of the body and recessed jets placed to perfectly match the muscle structure of the human form deliver a comfortable, premium hydromassage experience for most body types.

COMPLETE BALANCE

Using the Aqualibrium® Formula, each jet is individually calibrated to deliver the perfect balance of air and water, then precisely paired with the exact pump-to-jet ratio needed to ensure a balanced experience in each and every seat.

POWERPRO® JETS*

POWERPRO® JETS COLLECTION KEY

FX-S PowerPro® FX Small

Based on FX technology, the FX Smallets are perfect for a focused massage on key pressure points such as your feet.

FX PowerPro® FX

The unique rifling action creates a rejuvenating, spiral stream of air and water, perfect for stimulating muscle groups.

FX-R PowerPro® FX Rotational

Focusing on smaller muscle groups with a kneading effect, the FX Rotational Jet stimulates surrounding tissue.

NX2 PowerPro® NX2

This directional jet effectively relieves tension and strain in the sensitive and hard-to reach neck area through a highly focused stream of water.

More jets do not necessarily equal a better hydromassage, but the right jets do. From the perfect mix of air and water to the careful placement of each exclusive PowerPro® jet, we deliver the optimal massage. And that is why the Jacuzzi® brand is recognised by consumers as the industry leader.

FX-LR PowerPro® FX
Large Rotational

With a wide swath that provides an exceptional massage for large muscles, the rotational action can help overworked, overstressed muscles and joints.

MX2 PowerPro®
MX2

Based on the form and function of the original Jacuzzi® Jet, the new generation jets deliver maximum volume at a higher air-to-water ratio to deliver a bold massage to the muscles in the lower back.

RX PowerPro®
RX

The spinning RX Jet delivers comforting relief to the back and shoulders utilizing the highest performance hydromassage the Jacuzzi® Brand offers.

FX-D PowerPro®
FX Directional

Designed to relieve tension and improve circulation, this spiral action directional jet delivers a bold, targeted massage to the hips.

BX PowerPro®
BX

Exclusive to the J-300™ collection, the comforting yet rejuvenating bubbling effect massages the calves.

FX-L PowerPro®
FX Large

Focusing on the middle of the back to relieve tension and muscle strain, the spiral action massage promotes better circulation.

PX PowerPro®
PX

Perfect for small muscle groups in the wrists, hands and legs, the gentle pulsating massage can be adjusted for different rates of flow.

PowerPro® Jets are available in select models in the J-500™, J-400™, J-300™, Design and Professional collections and in the hydromassage seats of the Swim Spas. Sizes shown are approximate.

The Jacuzzi® hot tub water treatment solution uses UV-C technology, that gives you the choice to add the right dose of chlorine or bromine to meet your needs. Regardless of whether you choose, the system will combine ozone with UV-C technology to offer the most powerful clean water system available.

UV-C SYSTEM

- Nature-inspired technology neutralizes pathogens
- Works with traditional chlorine or bromine sanitizer
- Same technology used in bottled drinking water, aquariums, and healthcare

OUR HANDS-FREE APPROACH TO WATER CARE

Ozone
+ UV-C

Active Oxygen

CLEARRAY ACTIVE OXYGEN™

Clearray Active Oxygen™ is a new water treatment technology that combines the action of ozone with UV-C rays to increase the disinfection of your hot tub water and reduce the use of chemicals.

A small amount of ozone is introduced into the hot tub water. The ozonated water is treated by the UV-C rays, which triggers a natural reaction. The water with active oxygen destroys most of the pathogens in the water in a very natural way. The clean, clear water is then pumped back into the hot tub where it continues to clean and polish the water, breaking down the contaminants so it can be easily removed through the filters.

5-STAGE FILTRATION PROCESS*

STAGES 1&2

The surface skimming weir and ProCatch™ bag work together to clean the surface while trapping large debris for easy removal.

STAGE 3

The ProClarity® filter on the ProStream™ circulation pump helps ensure clean, sparkling water quickly by catching tiny debris and particles that other filters miss.

STAGE 4

The ProStream™ circulation pumps pulls the water through a ProClear® filter that works to clarify water even when the jets are not running.

STAGE 5

The ProClear® filter operates with your hot tub's hydromassage pump to remove large and small particles providing the cleanest water.

All Jacuzzi® hot tub collection models use special water treatments and multi-stage filtration to ensure your hot tub water is disinfected.

* Stages of filtration vary by collection

CLEARRAY
ACTIVE OXYGEN™
— CLEAN WATER SYSTEM —

INNOVATION

The exclusive SmartTub™ system is engineered to maximize your relaxation, recovery, and energysaving potential. It's easier than ever to use and maintain your Jacuzzi® Hot Tub.

Alexa,
ask my

my massage

SIMPLIFIED HOT TUB OWNERSHIP AT YOUR FINGERTIPS

CUSTOMIZE YOUR SETTINGS

- Manage your vacation home hot tub
- Change temperature and lighting
- Control energy savings and filtration

REMOTE MONITORING

- Delivers energy usage estimates

EASY TO USE

- Always connected with cellular based service
- Activate hot tub with your Smart Home device
- Access personalized tips and how-to videos

SmartTub™

SmartTub™ system uses cellular-based communication and requires cell service from our provider partner in your area. See website for details. Requires subscription beginning in second year of ownership.

Estimates are based on sensor readings and are not meant to match your utility measurements, see your local utility company for specifics to your local system.

COLLECTIONS

1. SELECT THE SIZE AND NUMBER OF SEATS

A common misconception about hot tub size is that you're limited to models with less seating options when yard space is limited.

The good news is that a hot tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few inches.

2. SELECT THE CONFIGURATION OF THE SEATS

LOUNGE

As well as offering several seats, the hot tub with lounge allows for a complete individual massage while lying back.

OPEN SEATING

The hot tub with side-by-side seating offers various types of massage.

3. FIND THE COLLECTION THAT'S RIGHT FOR YOU

REFLEXOLOGY FOOT DOME

- The J-575™ offers a lateral foot massage that is the perfect way to relax after a long day at the office, an intense workout or long hours on your feet.

WATERCOLOUR™ WATERFALLS

- Dual facing waterfalls, combined with ProEdge™ Interior Lighting provide a 360° fibreoptic experience which creates a complete environment of relaxation that can be tailored to your mood.
- The waterfalls create a relaxing head and neck massage to help unwind after a long day and work in harmony to provide an exceptional massage for the larger back muscles.

RX THERAPY FULL BODY LOUNGER

- The J-575™ lounger is a fully immersive experience with focused and deep tissue massage jets for your back and hips to softer less vigorous jet options for the back of your legs and feet.
- The lounger has been upgraded and debuts two large FX Directional jets that create a kneading effect, which stimulates the muscle tissue in the hips for a superior massage experience.
- The J-575™ hydrotherapy seat incorporates comfortable arms rests which also include advanced PX therapy jets for a pulsating wrist massage.

DESIGN COLLECTION

DESIGN COLLECTION

FEATURES:

- PowerPro® Jets
- Blower (Profile, Santorini, Delos, Delfi, Unique, Alimia)
- Waterfall (Santorini, Delos, Delfi)
- Automatic water fill-up (Virtus, Profile)
- Back-lit touch controls
- Light System - Multicolour
- CLEARRAY UV-C
- 2-stage filtration system
- Base in Propolymer™
- Insulation EcoShield (Virtus, Skylounge®)
- ProVinyl Cover
- Built-in or freestanding installation

OPTIONAL FEATURES:

- Performance kit (Sand filter)
- Heat Exchanger
- Winter Pro Kit perimeter insulation

DESIGN MADE IN ITALY

- Elegant, minimalist and sophisticated, these hot tubs are designed to suit any environment. Each model is available with external panels in a variety of materials and colours in line with contemporary design trends.
- These hot tubs give the greatest possible freedom of installation: outdoors or indoors, above or in-ground, in any environment or situation.

ORIGINAL JACUZZI® HOT TUBS WITH INFINITY EFFECT

The Virtus and Profile models offer a spectacular infinity pool effect. On immersion, any excess water is collected in the integrated adjustment tanks via the outside grille and then returned to the tub, in order to maintain the ideal level at all times, just like a pool, with no need for top ups.

CARTRIDGE OR SAND FILTER

The Profile, Santorini, Delos, Delfi and Unique models are equipped with a cartridge filter but are also compatible with the Performance Kit sand filter that guarantees greater filtering efficiency and reduced maintenance. Virtus is the only free-standing hot tub model with integrated sand filter.

All hot tub dimensions are shown in: L x W x H

Virtus

design
Dodo Arslan & Jacuzzi® Design

Dedicated not only to the hospitality world, Virtus is the ideal hot tub for sharing a moment of well-being, having fun together and freeing the mind. The seven slanted seats and increasing depth make for a targeted and complete hydro-massage to suit everybody. The infinity edge and auto-adjustment system allow the water to be kept at the ideal level, with no need for top ups.

NB. Water and drainage connection required.

LODGE+ COLLECTION

LODGE+ M

LODGE+ COLLECTION

FEATURES:

- Classic Jets
- Back-lit touch control
- LED control panel
- Underwater LED multicolor light
- CLEARARRAY UV-C
- Cartridge or sand filtering system
- Base in Propolymer™
- Eco Shield insulation
- Insulating cover ProVinyl
- Built-in or freestanding installation

OPTIONAL FEATURES:

- Sand Filtration
- Marine Kit
- Heat Plus
- Heat Exchanger

COMPLETE & QUICK DRAIN®

- All the water is emptied out of the spa through a drain located in the base. This prevents stagnant water and allows you to thoroughly clean the hot tub during change overs for your next guests.
- The Quick Drain® device reduces drain times by up to 50% compared to standard hose pipes or submersible pumps.

HEATER OR HEAT EXCHANGER

- The Lodge range can be fitted with an upgraded electric heater or a heat exchanger, which is an inexpensive, green solution that exploits the heat produced by your facility's heating system or by renewable sources. To shorten heating time even further you can use the heat plus option in addition to the standard heater.
- For an even greener, more efficient and cost-effective choice this range can also be fitted with an Eco Heat pump that transfers ambient heat to the water.

SAND FILTRATION (OPTIONAL)

- Optional sand filtration gives long standing assurance of hygiene and cleanliness because it traps the impurities in the water. It is easy to remove, must be cleaned on a regular basis and replaced when necessary.

PROFESSIONAL COLLECTION

PROFESSIONAL COLLECTION

FEATURES:

- PowerPro® Jets
- Blower (except Virtus)
- Premium LED Lighting
- Automatic water fill-up
- Quick drain
- ProVinyl Insulated Cover
- Built-in installation

OPTIONAL FEATURES:

- Compensation tank
- Spa Pack Single-phase without or with heater 3 kW or with Exchanger
- Spa Pack three-phase without or with heater 12 kW or with Exchanger
- Ozone generator
- Booster kit: professional water analysis and control system.

OVERFLOW RIM & AUTOMATIC WATER FILL

- A distinctive feature of the Professional range is the 15° angled overflow grid around the surface of the hot tub. It collects surface water, which overflows through the grid to a compensation tank. The water is then moved through a filtration system, cleaned and pumped back into the base of the hot tub to be re-used. Thanks to the slant of the grid the water remains at spa deck level even if there is a rocking motion, so they can be installed on yachts and ships.

IN-GROUND INSTALLATION

- Different to a domestic hot tub, installation is in-ground and involves installing a separate spa-pack and compensation tank to allow water to continuously move through a quartz sand filter where it is cleaned before flowing back into the tub for re-use.

SAND FILTER (SPA-PACK) & COMPENSATION TANK

The professional spa pack includes:

- Sand Filter (sand included)
- Set of pumps (hydromassage, circulation and blower compressor)
- With or without heating (electric heater or heat exchanger)
- Control system
- Compensation tank is available in a standard or low height.

All hot tub dimensions are shown in: L x W x H

SPA-PACK

The Professional hot tubs baths are also distinguished by the very low noise level of the system. the Jacuzzi® technicians have in fact designed the set of pumps, the water heating system consisting of the electric heater and of the heatexchangers, the compressors for the blowers and an optional ozonizer (indispensable to further increase water quality) in an independent technical compartment (Spa-Pack) that can positioned at a distance of up to 6 metres.

Thanks to superior quality filtering, the quartz sand filter makes these hot tubs ideal for professional use. the filtered water flows back to the hot tub through the ground drainage point: this method, as well as offering the visual effect of an “underwater fountain”, sends the particles deposited at the bottom of the hot tub into circulation making them more likely to be captured by the jets that send the water to the filter. Although it is technically complex, the system is easy to manage even by home users by means of pneumatically controlled buttons.

Spa and piping system

- 1 Overflow channel with grid
- 2 Pneumatic buttons
- 3 Connections to plumbing
- 4 Perimeter metal supports

Spa-Pack

- 5 Electric wiring box
- 6 Optional:
 - 6a Heater (12 kW)
 - 6b Heat exchanger
- 7 Hydromassage pumps (2+2 hp)
- 8 Filtering pump
- 9 Filtro a sabbia quarzifera
- 10 Safety switch
- 11 Temperature sensor

Compensation tank

- 12 Water loading/filling solenoid valve (3/4")
- 13 Pre-filters
- 14 Overflow
- 15 Ground drainage points

PERFORMANCE

The Powerpro® Swim PX jet is engineered to ensure water is flowing properly. The wide stream jet generates a smooth predictable current with no turbulence for an advanced swim experience.

DESIGN

Best for both swimming and Relaxing. Hips in shell stop reflective wave. The suction jets are located at seated end to create conveyor belt effect for water flow.

FORM SMART SWIM GOGGLES

Smart swim goggles specifically calibrated for the Jacuzzi(R) PowerPro™ and PowerActive™ Swim Spas. Complete with optical display lens to view time, distance, stroke frequency and rhythm in real time. Compatible with GPS trace and heart rate measuring devices. The dedicated app allows users to customise training sessions, monitor the results and share them.

CUSTOMER SERVICE AND ON-GOING COMMITMENT

Showroom

When you have an idea of the hot tub model that will suit your needs, you can see the real thing at your nearest showroom. Our experienced sales force will then take you through the purchase process and in many instances give you're the opportunity to try out hot tubs in demonstration areas.

For more information on the technical features of the products, please consult the website www.jacuzzi.eu where you will find a list of authorised dealers you can contact.

Delivery

Once you have selected the hot tub you can arrange for it to be delivered. This part of the process involves us scoping out the fitting area, the location of your home and the logistics of bringing the tub to you.

Fitting

After the electrical work & level base have been completed, Jacuzzi® will send their expert fitter to connect the hot tub to its designated power source. They will then fill the tub to the right level and then demonstrate the correct way to use it.

Aftercare

With the hot tub installed and being used at your leisure, it's good to know that Jacuzzi® is always on hand to deal with any questions, offer tips and recommend the best ways to keep your unit running smoothly.

Warranty

All our hot tubs carry a standard 2 year warranty to provide you with superb peace of mind. the 2 year warranty is for EU countries only. For other markets please check with local retailer.
